

Bintang Kusuma Putra

Purworejo, Central Java | +62 851-5639-9522 | bintangkusuma907@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

Motivated Software Engineer with dual expertise in Creative Web Development and Mobile Application Development. Experienced in building responsive and accessible digital products. Highly skilled in web technologies (HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Laravel, Github). Additionally, proficient in Data Analysis, including complex data manipulation using Python (Pandas, NumPy) and visual data mining/machine learning tasks with Orange Data Mining. Currently pursuing a Bachelor's in Information Systems, focused on translating technical expertise into high-performance, data-driven software solutions.

EDUCATION

UPN “Veteran” Yogyakarta

Bachelor of Information System

Aug 2023 - Present

GPA: 3.63/4.0 – Expected Graduation: June/2027

Relevant Coursework: Software Engineering, Web Programming, Mobile Application Development, Database Management Systems, Software Design, Data Analysis & Visualization, Introduction to Artificial Intelligence.

PROJECT/PORTFOLIO

LaundrySEP – Laundry Management System

June 2025

Tech stack: PHP, MySQL, JavaScript, HTML5, CSS3, Figma

Developed a comprehensive web-based laundry management system to streamline operations and enhance customer experience for laundry service providers.

- Implemented session-based authentication with role-based access control (admin/customer), ensuring secure data management and user privacy across the platform.
- Designed and developed an intuitive admin dashboard featuring real-time order tracking, customer management, and financial reporting with dynamic data visualization.
- Optimized order processing workflow and payment tracking system, improving operational efficiency by 40% through automated status updates and notification systems.
- Built a responsive user interface using a mobile-first approach, ensuring seamless accessibility across all devices with modern CSS styling and interactive JavaScript components.

Premier League App – Mobile Application

Nov 2025

Tech Stack: Flutter, Dart, Hive, REST API, Firebase

Built a mobile-based platform for Premier League enthusiasts with real-time data and interactive features.

- Designed a modern and accessible UI with gradient themes to improve user engagement and visual appeal.
- Developed secure authentication with SHA-256 password hashing and session management using Hive local database.
- Integrated REST API from api-sports.io for real-time Premier League standings, fixtures, transfers, and news updates.
- Enhanced platform usability and performance through:
 - Location-Based Services (LBS) using GPS for automatic timezone detection (WIB/WITA/WIT)
 - Sensor integration with gyroscope for interactive goalkeeper game challenge
 - Local notifications for match reminders and updates
 - Image handling with camera/gallery integration for user profiles
- Implemented comprehensive testing including form validation, API error handling, and cross-device compatibility.

Personal Portfolio – Creative Portfolio

Aug 2025

Tech Stack: HTML5, CSS3, Vanilla JavaScript (IntersectionObserver, smooth scrolling), Git, Vercel

Developed a modern portfolio to highlight projects, tools, and organizational experience across a responsive two-column layout.

- Crafted an accessible, mobile-friendly interface with custom CSS grid/flex layouts and reusable design tokens.
 - Built interactive behaviors (sticky section headers, active sidebar navigation, reveal animations) using vanilla JavaScript only.
 - Deployed on Vercel with version control via GitHub for continuous updates.
- [Github Repository](#) | [Portfolio](#)

SKILLS & INTEREST

Technical Skills:

- Web Development & Frameworks: HTML5, CSS3, JavaScript, React.js, Next.js, Laravel, PHP.
- Database: MySQL, PostgreSQL.
- Version Control & Styling: Git, Github, Tailwind CSS, Bootstrap.
- Mobile & Cross-Platform: Dart, Flutter, Mobile Programming.
- Data Analysis & Tools: Python (Pandas/NumPy), Orange Data Mining, SQL.
- Design & Others: Figma, C++.

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Creative Thinking, Leadership, Requirements Engineering.

Interest: Web Development, UI/UX Design, Data-Driven Product Development, Mobile-first Development, Startup & Entrepreneurship in Tech.

ORGANIZATIONAL EXPERIENCE

Ketua Ekstra Futsal - SMAN 4 Purworejo

Jan 2022 – Jan 2023

- Led and managed the school's Futsal extracurricular team for two years, demonstrating leadership and strategic planning skills.
- Responsible for scheduling, training, and coordinating participation in inter-school tournaments.

Anggota UKM Sepak Bola – UPN "Veteran" Yogyakarta

Aug 2023 – May 2024

- Actively participated as a member of the university's football student activity unit (UKM).
- Cultivated strong teamwork, discipline, and commitment in a high-performance, competitive environment.
